Gathering in Louisville for the National Encampment.

### FIFTY THOUSAND SOLDIERS

ESTIMATED TO HAVE ARRIVED IN THAT CITY TO-DAY.

A Fine Parade Greeted Commander-in-Chief and Staff, Louisville, Outdressed Himself to Welcome and Entertain the Veterans.

Special by Associated Press. LOUISVILLE, Sept. 8.—This city is full of soldiers to-day, collecting here to attend the annual national encampment of the G. A. R. It is estimated that 50,000 people had come into this city before noon to-day.

A fine parade greeted Commander-in-Chief Lawlor and staff when they arrived in the city this morning. The Louisville Legion was the feature of the parade. Special trains have been constantly arriving, and the escort has been kept busy. The trains are handled rapidly and are unloaded in most convenient places. The greatest rush is expected within the next 24 hours. The attendance of Confederate veterans is very large and they are very active in entertaining "Yankees." The decorations along the streets are general and elaborate.

### THEY STONED HIM

And Left Him for Dead by the Roadside—Mad Action of Infuriated Miners Near Pittsburgh.

PITTSBURGH, Pa., Sept. 9.—Emil Doerner, employment agent, this city, against whom coal miners near Finleyville had grudge, was beaten by infuriated men who left him for dead. He subsequently revived and took shelter in a house. They stoned the house and tried to compel the owner to put Doerner out.

### KU CHENG MASSACRE.

Inquiries Develop Some Surprising Facts Connected With It.

VICTORIA, Sept. 9.—Recent letters from Shanghai announce the arrival of the commissioners to enquire into the Ku Cheng massacre. Escort with a handful of poorly-armed, undisciplined Chinese soldiers accompanied commission, with no molestation, showing that no such lawlessness as officials claimed exist in that territory. The commission has rendered statements of three witnesses of the awful massacre which indicate the brutalities were committed by secret society organizations. Some surprising developments promise to result from the official investigation.

### FOUGHT FOR A COW BELL

And One of the Participants Was Killed. While the Other is a Murderer.

PORTSMOUTH, Sept. 9.—George Hughes, aged 21, fatally stabbed Jos. Holt, aged 65, near this city Sunday afternoon. They had quarreled over a cow bell that Hughes had borrowed and failed to return. Hughes was captured but knocked the constable down and escaped.

## STREET TALK

The marriage of Mr. J. E. Sullivan, of the Buckeye Pipe Line company, this city, and Miss Emma Fahy, of Marion, O., was announced at St. Rose church yesterday. The ceremony will take place at Marion on Wednesday morning, Sept. 25th.

Geo. M. Plate, bookkeeper for the Moore Bros. Co., left Lima on his wheel this morning for Miamisburg, Ohio, where he will spend his summer vacation with his parents. He also expects to join a party of friends intending to ride through to the Mammoth Cave, Ky.

The Pennsylvania railroad paid her city taxes in the city of Philadelphia last Thursday, the amount of the check being \$252,000. This was the half payment of her annual tax. Among the property on which this tax was paid was the company's Broad street depot, which is on the duplicate at \$3,000,000.

## WELL RECEIVED

Is the Lima Northern Railroad Project North of Lima.

Wauseon and Napoleon Will Probably Secure the Line, Although There is Another Route at Work on the Grade.

J. B. Townsend, who has been in the northwestern part of the State for the past ten days in the interest of the Lima Northern road, stated to a TIMES-DEMOCRAT representative this morning that everything was progressing in a satisfactory way. The shortest line to Adrian, the objective point of the road, is from Ottawa to Leipsic, then across to Hamler on the B. & O., then through Delta and on to Adrian; but the citizens of Wauseon and Napoleon are showing so much interest in the proposed line that it is probable that the road will go that way. Last week big meetings were held in both places and the amount required by the railroad company placed before the people, who pledged it, and they are now at work raising the amount and securing the right of way.

Work on the grade is being actively pushed forward between this city and Ottawa, and a large number of men and teams are now at work. The Lima Northern tracks will parallel the C. H. & D. the entire distance, being directly east of the latter. The force is being added to each day and by Saturday night it is expected the entire distance will be covered, except the land through which the company will have to pass by condemnation proceedings.

## VANDERBILTS AND THE ERIE.

The belief is that the Vanderbilts will ultimately secure control of the Erie, now about to be organized. By doing so they would do away with one strong competitor, leaving only the B. & O. The Pennsylvania is a competitor of the Vanderbilt lines, but not a stiff one, as the two systems never conflict. By securing the Erie, however, the Vanderbilts would be rid of a troublesome road, and it would be a big stroke of enterprise, such as the Vanderbilts are capable of making, to buy it.

## THE COLUMBUS EXTENSION.

A gentleman prominently identified with the Ohio Southern extensions, when seen by a Dispatch correspondent, says a special from Washington, C. H., gave it as his opinion that the recent change in the C. A. & C., which gives Senator Brice the control, means the pushing and rapid completion of the Cincinnati and Columbus branch of the Ohio Southern. The line is now constructed from Harveysburg, Warren county, to Sedalia, Madison county. The right of way from Sedalia to Columbus and from Harveysburg to Lebanon, a distance of eighteen miles in the latter case, has not been secured, but as it requires the completion of this Ohio Southern branch to complete the Brice system, and as money will not be a scarce article with the reorganized company, its early completion must be considered an absolute certainty. Large force of engineers and laborers are now at work on the northern extension of the Ohio Southern from Lima to Ottawa, Putnam county. This fact may have a tendency to delay work on the Cincinnati and Columbus branch. If anything delays it it will be this, as it requires good managers and economical schemers to push railroad construction to completion. People along the latter route are anxious for an early completion of the line.

## NOTES.

Dave Brumbaugh, a switchman in the Penna. Co.'s yards at Toledo, visited friends here Saturday and Sunday.

Conductor J. P. Jackson, of the L. E. & W., who has been quite ill at his home on south Elizabeth street, is convalescent.

## Pure Spices.

Nothing pleases a housekeeper more than the finest Spices in putting up fruits. Keep in mind the fact that the Lima Tea Co. always have the finest grades. They cost you no more than the ordinary kinds usually do.

Some Clothing shops think the louder they advertise, or the more they yell, the better it is. It may be so in their estimation.

## OUR MOTTO:

# LITTLE NOISE AND LOTS OF WORK.

With the Beginning of This Week,  
We Begin our Fall Campaign.

It is Children's Clothing that we talk of to-day.  
That we are Leaders in this line is an acknowledged fact.

Not because we say so; it is the Public who tells us we are.

We are showing the most complete and best selected stock of the Rough and Ready and the Dress Suit, made right, trimmed well and correct fitting. Our goods are made right home by American labor and worn by American youngsters.

We start our Children's Goods with a handsome line of Kilt Suits, for the little tots from 2 to years, in several styles and shades, from \$3.50 to \$5.00 per suit. Then we go to our Juniors and Reefers for boys, from \$4 to \$8.

Here we are at home. We pride ourselves on showing everything and anything that is handsome, stylish and new, all make ups, designs and styles. Our prices in this line start at \$1.50 and go to \$9.00 per suit.

Then for the boys from 7 to 15, we have style after style in Mixtures, Twills, Black and Blues. Our goods are not cheap, but they are made the way goods should be made. They combine style, fit, trimmings, make up and qualities.

We are making every effort to sell the bulk of Children's Clothing in this city and do things in an honest, straightforward and upright way, and when we say an article is all right our guarantee is back of it or money goes back to you. We can not sell \$1.50 suits for 98c. Our \$1.50 suits cost \$1.50. They are marked plain, but we guarantee you value for \$1.50.

By all means look at our complete line. Examine our qualities, make ups and trimmings and get our low prices, and then judge where is the best place to get the most merchandise for the least money, or 100 cents worth of honest, well-made and correct-fitting Children's and Boys' Clothing for every dollar you spend. We will talk Men's Clothing in a day or so.

## Death of Miss Ethel Beatty.

Miss Ethel, daughter of Mr. and Mrs. M. N. Beatty, died at the home of her grandmother, Mrs. W. U. Hover at 11:45 o'clock last night,

from appendicitis. The deceased was almost 16 years of age and had been ill less than a week. The funeral services will be conducted from the residence, by Rev. S. L. Roberts, of Toledo, at 2 o'clock tomorrow afternoon.

## Storing Potatoes.

A perfect store place is capable of being kept quite dark and cool, but quite safe from frost. Therefore it should be at least partially under the ground level, as being the easiest way of keeping frost at bay. If stored in sheds, they should not be put into large masses directly they are lifted, for they are liable to generate more warmth than is good for them, but if spread out rather thinly at first, they may, after a fortnight, be placed much thicker without any harm. But where large quantities have to be kept through the winter there is no better plan than placing them in mounds, according to The Gardener's Magazine, which advises as follows:

Select a place a little above the general level, so as to be quite safe from flooding after heavy rains, and having marked out the space required put a good layer of straw. Proceed to pack the potatoes into a conical long heap, cover with straw, and then place a sufficient thickness of soil to keep out frost, and beat it down so firm and smooth that the rain will run off into the trench surrounding it. The top should not be quiet closed up until severe frost renders it necessary to do so.

## Bishop Fallows' Saloon.

The Home saloon of Bishop Fallows, in Chicago, fools a great many old toppers. His idea is to make the place as much like a first class saloon as possible and to sell in it something as much like beer as science could concoct without its being the real thing. The saloon has a big bar, with a substantial rail, from which hang half a dozen towels. Back of the bar is a white coated bartender, and back of him are big mirrors and rows of shelves, covered with black bottles bearing gaudy labels. A row of lemons and a bowl of cracked ice help to make up the illusion. Every day some thirsty victim wanders in and orders "beer." He gets a glass of foaming something that cools, may cheer, but can't inebriate. The victim usually gulps it down, then opens and shuts his mouth and tries to recall the taste, while a puzzled look spreads over his face. Sometimes he asks questions, but usually he walks slowly away, wondering whether or not his stomach is all right. —Chicago Letter.

## BACOME STILL LIVES

But There is Little or No Chance for His Recovery.

Albert Bacome who was brought home Saturday afternoon from Van Wert, where he was frightfully injured at an oil well, is still alive, but his condition is not encouraging and it is not thought that he can recover. He suffers terrible pain from his injuries, and although it is not thought that his back was broken, he has other injuries that will doubtless prove fatal.

# THE JINRIKISHA.

STANDARD ORIENTAL CARRIAGE IN-

Missionary-Gobel's Rheumatism Was the

Incentive-Other Experiences of That

Lively American Who Went in Symp-

athy With Everything in Japan.

For the jinrikisha, which is the great-

est blessing travelers in the east enjoy,

we have to thank an American sailor

who came here on Commodore Perry's

flagship in 1858, and then returned

seven or eight years later as a mission-

ary of the Methodist persuasion. His

name was Jonathan Gobel, and he is

mentioned in Commodore Perry's narra-

tive as a person of rare intelligence

who took great interest in the spiritual

welfare of the Japanese. Gobel was one

of the earliest members of what is

known as the New-York mission.

The jinrikisha is another illustration

of the old adage that necessity is the

mother of invention. For Brother Gobel

was afflicted with rheumatism in his

later years and found it difficult to

travel. The jinrikisha, which was used

by the natives, was too close for him,

and the kago, a vehicle in which the

lumber classes were in the habit of

carrying the lame and the lazy, was

very uncomfortable for his long legs, so

he took a packing case, painted it black,

as appropriate to his dignified set it

upon a pair of wheels.

For shelter from the sun, he rigged a

canvas awning that could be raised and

lowered according to his convenience,

and he hired a brawny coolie to hand

him about. That was the origin of the

vehicle which takes the place of car-

riages and street cars in Japan, Korea,

India and China, for Brother Gobel's

invention has spread all over the coast.

So useful and convenient it has be-

come, therefore, Brother Gobel called it

a jin (man) ricki (power) sha (car-

riage). But the swells prefer to term it

Indiana and Some Other States.

It has been proved that even in the

generally fertile regions of Kansas and

failure. The necessity, therefore, forces

itself upon farmers residing in these re-

# THE ART OF MARCUS.

A QUAKER HOOSIER WHO COULD

PAINT OR MAKE A MATCH.

Early Struggles With a Talent That Could

Not Be Suppressed-How He Brought About

a Happy Marriage.

One of the unique characters of the

state is Marcus Mote, the veteran Quaker

artist of Indiana. He is now 72

years of age and is a very lively

memory of things that happened in his

youth and prime is keen and true, but

the events of the day pass as the sum-

mer clouds. It was he who first de-

vised the Quaker antipathy to art in oil

and brush, and he secured the petition

which caused the legislature to provide

that the public schools of Indiana should

teach drawing. The petition was pre-

sented by Senator Baxter, since de-

ceased. Two years previously the Quaker

artist had secured the teaching of

drawing in the public schools of Rich-

mond by ordinance.

Marcus Mote's talent was born with

him. It is said of him that when only

2½ years old his mother came home

from visiting one day and found him

scratching a rude picture on the foot-

board of the bedstead with a piece of

charcoal. The Quakers held that paint-

ing was of the devil and savored of

idolatry. The boy was rebuked, with a

remark, "I do believe this mischief

was born in thee."

There was no relenting as the lad

grew up and the propensity to draw

and paint developed. He was forbidden

to indulge his talent, but he could not

be repressed. It is evident that he had

met with encouragement and aid, in-

stead of rebuke, fame and fortune would

have crowned the artist with their rich-

est laurels. As it was Marcus had to

take to the woods for his colors. The

primaries he derived from red root, or

treated in the same manner, yielded but

36 bushels per acre.

terest themselves, and that speedily, the affairs of the State must pass into an infinitely worse condition than now characterizes them.

In the present conjuncture of affairs no Democrat can afford to be a laggard, or straggle from the ranks, for it is upon that organization that the people of all parties must depend for relief from the evils that now exist and greater ones that threaten. To that organization, if it rallies united and harmonious with some hundreds and thousands of Republican voters who hail the present opportunity to stamp out the blash that has seized their party machinery and converted it to the very worst of selfish ends.

Moreover, this is but the preliminary skirmish of the great battle of 1896, and no Democratic soldier, be he one of the field and line or rank and file should earn the title of being either deserter or laggard. Not only the highest fealty to party, but the justest duty to party, demands that he enter actively into the contest, and fight unflinchingly until victory comes with the end.

The issues involved in this contest are issues on which all Democrats can agree and on which they do agree. Whatever question suggested divisions in the past, have been sent over to the National Convention for consideration and action, and we may all safely confide in the collective wisdom of the Democracy of the forty-four states when they meet in council.

The work now before the voters of Ohio, and especially before the Democrats, is to place the State and local affairs of Ohio in safe hands. The Democracy present a man tried and trusted and true, free from all taint and suspicion of Coxism, and around him the party should rally, and their votes, with those of intelligent, independent Republicans, will destroy the boss and put an end to boss methods.

## Sunday Closing in New York City.

Three saloons to the block on one side of a street are probably more than even the most enthusiastic advocate of Sunday drinking would claim. Yet that number was frequently found in New York city before the Sunday closing law was enforced. There were so many drinking houses that they could not all prosper, even with open Sunday. Numbers of them were mortgaged to the great brewers. It is a fact that persons as the liquor selling business is supposed to be the same as a man who gets rich. He has to bear all the odium of the law upon him by temperance people, and he does not prosper either. He is too numerous. The effect of the new law in New York city will be to close hundreds of saloons.

The legal act requires that the saloons shall be closed. There shall not be a shadow of a law down business. The law must be drawn up so that the police may see and see that the places are closed. When the police come to see the law, they will find the saloons closed. The law will not be done, and it would run the dominant political party even if it could be done. Well, it has been done. A president of the board of police commissioners who accomplished the feat, Hon. Theodore Roosevelt has made himself a place in history. When the Wine, Liquor and Beer Dealers' association of New York county met and voted to obey the law to the letter and actually shut up all their saloons, it was the final capitulation.

Whether a future legislature will repeal the Sunday closing law or whether future police authorities will wink at its violation, the fact remains that Sunday closing has actually been accomplished in the semirepublican city of New York. Those who want beer and wine to drink on Sunday can buy it on Saturday. Saloon keepers will have their day of rest like the rest of the world, and not a few of them declare they are glad of it.

Pennsylvania will be extensively represented at the Atlanta exposition, and it will be largely on account of the fraternity of feeling existing among the newspaper people of Atlanta and Pennsylvania. At the convention of the International League of Press Clubs in May, 1893, representatives were made and ties were formed between Pennsylvania and Georgia which resulted profitably and pleasantly for both states. One result will be the permit to have the original Liberty bell on exhibition at the Atlanta exposition. It will be placed in the Pennsylvania State building. The secretary of the Pennsylvania commission for the Cotton States fair is himself a newspaper man, Mr. T. J. Keenan, Jr., of the Pittsburgh Press. Pennsylvania has taken advantage of this opportunity to spread her manufactured goods before the sight of a population in the south that is increasing rapidly in wealth and numbers. The largest spread will be in the line of machinery, electrical and otherwise. It will be money in the pocket of Pennsylvania, and it will be money to all states that have done likewise.

Our fall assortment of HER MAJESTY'S CORSETS have just arrived. We have had the exclusive sale of this corset for the past five years and as far as we know the agency remains with us.

New Jersey lately witnessed something that has been seen probably nowhere else in the world. It was a family reunion of 2,000 Smiths, many of them descendants of the original John Henry Schmidt of Holland. John Henry lived at Poplar, N. J., and it was at his old home-land where the 2,000 Smiths had their reunion.

One of the brightest indications for the future of this country is the large number of working people who are getting their wages raised without asking for it. When hard times come again, if they ever do, these working men and women will not fret that their employers will not raise wages in the time of prosperity.

## TO SCHOOL THIS MORNING!

And did your boy wear the same old suit that did duty for vacation time? If he did don't lay up repentance for yourself; don't worry about the fact that some one else's boy who dressed in a new suit—that he did look better than your boy, for the little fellow will notice that himself, and he will do all the worrying that is necessary. We will help you out; we have a goodly supply of Suits; most of them are made with double breasted jackets, all in colors for fall, every one made to our order, and that means that they are made as good as the best tailors know how; and the cost, that is less than you will expect.

Lieutenant Wingate Arrests Geo  
Kah, of the Ohio House.

Charles Kanawel Fined and Released.  
Wrote Changes His Plea to Guilty.  
—Girls and Boys Get Out of Corset  
Late Trouble.

Saturday evening about 7 o'clock  
Lieut. Wingate visited the Ohio  
House on South Main street and ar-  
rested the proprietor, George Kah,  
upon a charge of conducting a house  
of ill fame. He also arrested a young  
man and a woman whom he found oc-  
cupying a room at the place and took  
the three prisoners to the police sta-  
tion. The young man and the wo-  
man were arraigned upon a charge of  
reverting to a house of ill fame, to  
which they pleaded guilty and were  
fined \$5 and costs each.

Kah entered a plea of not guilty to  
the charge against him and the case  
was set for a hearing this afternoon.

**GIRLS AND BOYS.**

Yesterday Chas. Cooney, accom-  
panied by two young women  
visited a grove west of town and  
indulged in a considerable  
amount of beer which they took with  
them. Later they returned to the  
city and indulged in disorderly con-  
duct on the streets. Cooney was  
afterwards arrested, and this morn-  
ing he was arraigned before the  
mayor upon a charge of having been  
drunk and disorderly. He pleaded  
guilty and was fined \$11.60. The  
girls will be arrested as soon as their  
identity is ascertained by the police.

**FOR FAST DRIVING.**

Ed Shaum, a young man, was ar-

Dennis had trouble at the fair

**THE STANDARD**  
**Sewing Machine Had Everything Its**  
**Own Way at the Fair.**

The only sewing machine of which  
any exhibition was pretended at the  
fair this year, was the popular Stan-  
dard. Their display, properly be-  
longing to Hoover Bros., as they are  
the sole agents for the section, but  
it occupied a separate booth in the  
south-west corner of the Art Hall  
and was in charge of Mr. F. C. Hen-  
derson, late State agent for the ma-  
nufacturers, and Mrs. Chaffee, a skill-  
ful operator on the Standard. Ma-  
chines of the kind kind ever on ex-  
hibition at the Standard were ex-  
ceedingly popular with the Standard  
people in Hungarian ash, imported  
Circassian walnut and other hand-  
some woods. Something new and  
novel is the Standard grand or drop  
head sewing machine. While the  
machine is in a running order it re-  
mains in vertical position, but may  
be dropped down out of sight and the  
stand can then be used for a table or  
a variety of purposes. The booth  
was tastefully arranged, the walls and  
floors were covered with Moquette  
carpets and rugs, giving a very in-  
viting, attractive appearance to the  
surroundings.

Besides a general display of all the  
fine needle and art works, such as Ro-  
man embroidery, silk etchings, drawn  
work, etc., there were several beauti-  
ful landscape scenes done entirely on  
the Standard sewing machine. These  
surpass any previous attempts ever  
before exhibited. Among others are  
an Arab group and a hunting scene  
which are perfect in detail and color-  
ings. These pictures were among  
those shown at the World's Fair.

Called the Fire Department Out Sun-  
day Morning

A Mysterious Blaze Breaks Out in a  
Dwelling While the Occupants Were  
Absent

An alarm from box 13 called the  
central fire department out about  
7 o'clock Sunday morning to the  
corner of Grand avenue and Union  
streets.

The fire was located just beneath  
the roof of the dwelling house occu-  
pied by Mrs. Mary Lynch. It had  
started between two walls in a mys-  
terious manner and had spread  
through the entire loft by the time the  
fire department arrived.

A hole was chopped in the roof and  
a stream of water soon extinguished  
the flames. The household goods  
had been removed before the water  
was turned on, and consequently  
nothing but the building was dam-  
aged. There was no one at the  
house when the fire started and its  
origin is a mystery.

The property is owned by Pas-  
enger M. H. Lynch, of the Ohio South-  
ern, and the damage, not exceeding  
\$50, is covered by insurance.

TALES OF THE TOWN.

Herb Miller will move his family to Lima next week.—*Sunday News.*

John Knight, a tailor, has removed his family from Bellefontaine to this city.

Thos. Doyle and wife, of Fort Wayne, Ind., have moved to this city and are occupying their own home at 533 North Elizabeth street.

Mr. Geo. A. Albrecht and Miss Emma Lipsitt were married last night at 410 West Spring street by Rev. I. J. Miller. The bride and groom left at 1:45 this morning for Chicago.

For several weeks he has been in correspondence with authorities at Columbus in reference to a prisoner in jail there. It seems that officer Phelan of Columbus, overheard a conversation between two prisoners there, in which reference was made by one of them to the murder of Lyons. The other wrote here asking if such a crime had been committed and Sheriff Fisher answered with a complete account of the affair and enclosing a photograph. This was sent one day last week and Phelan answered that the prisoner and the photo tallied and he was satisfied that he was Palser.

Sheriff Fisher got track of Palser in New York City some time ago and followed him very closely, and this morning he stated to a Lima Democrat representative that he confidently expected him to turn up before long either at his home or near to Lima, as he was traced in this direction.

The following dispatch to the Evening Star from Columbus, says:

Deputy Sheriff Phelan has discovered that a prisoner in the jail of this city on a minor charge is none other than a murderer who has been at large for over a year, and for whose capture a large reward is offered.

August 19 last Jerry Eckenrode, a resident of East Chestnut street here, became intoxicated and, falling asleep on his front doorstep, was robbed. The exact amount taken from him is not known, but is supposed to have been about \$150.

A boy witnessed the robbery and followed the guilty parties to the City Hotel, at High street and Hickory alley. At that place he caused their arrest. There were two of the robbers. They gave their names as Sam Tracy and Harry Lewis. Both were bound over for the robbery and have since been confined in the County Jail.

Deputy Sheriff Phelan noticed that Lewis bore a striking resemblance to a man wanted in Lima for the murder of Patrick Lyons, May 28, 1894.

There was a reward of \$500 offered by the commissioners of Allen county for the capture of this murderer, and it is still pending. Deputy Phelan secured a photograph of the murderer and compared it with the prisoner. This almost satisfied him that he had the right man. Last Friday J. H. Sullivan, a machinist, of Covington, Ky., called at the jail and requested to see Frank Polser confined there. He said, for robbery, there was no man there under that name, but he was shown through the institution, nevertheless.

Frank Polser was the right name of the murderer of Patrick Lyons. When Sullivan reached Lewis's cell he instantly recognized him as Polser. The prisoner stubbornly refused to recognize the caller, but the latter was sure of the identity of Lewis as Polser. The sheriff of Allen county has been communicated with and will be here to-morrow to make the identification certain. The development in the case is regarded as a tall feather in Deputy Phelan's cap.

There are several women mixed up in the case, and it was through closely watching one of them, who called on the prisoner, that the fact came to light. One of these women is Cynthia Beers, keeper of a house of ill fame at 144 West Locust street. She called to see Tracey, and attempted to carry to the outside a letter from Lewis to a friend, in which Lewis practically admitted the Lima crime. The letter was taken from the woman by Deputy Phelan before he reached the outside. Lewis is a machinist by trade. He was formerly well known in Covington.

Sheriff Fisher has received no word from Columbus in confirmation of the above, but he is of the opinion that the fellow is Polser and will probably go to Columbus to-morrow with some one to complete the identification.

## THE YACHT RACE

The Second Event in the International Yachting Race.

HIGHLAND, N. Y. BREESE. Se A cloudy sky, a smooth sea with light southwesterly wind, the outlook for to-day's sailing was good. The race was the second event in the series of international races. The race is to be over the triangular course, each triangle ten miles in length. Precautionary measures were taken to prevent a repetition of the experience with the yachts by steamers, which was such a local feature in Saturday's race. The race was started at 8 o'clock and wind from the north, but the sea was hazy. The first boat to cross the line was the Makey-Bennett, eight miles from shore, says a poor racing breeze is blowing. The preparation of the race was direct south and, northeast by east, and northwest by west. The race was started at 11 o'clock, before crossing, down upon by the Valkyrie. The topmast was badly sprung. Defender protested against violation of racing rules. It was accepted by the Valkyrie. The progress of the ship is shown by the following:
